## SUMMARY

I am an enthusiastic and goal-oriented Computer Science student specializing in Artificial Intelligence, with hands-on experience in data structures, algorithms, and web development. I have built efficient software solutions, including a personal information website, showcasing my expertise in HTML and problem-solving skills. My motivation stems from a passion for innovation and continuous learning, driving me to excel academically and professionally. I aim to leverage my skills in programming, teamwork, and analytical thinking to make a meaningful impact in the tech industry
